EDUCATION

California State University, Long Beach

2019 - 2023

B.S. in Computer Science

Long Beach, California

Courses: Data Structures & Algorithms, Object-Oriented Programming, Database Management, Software Engineering

PROJECTS

Forum-Based Web App (Capstone)

- Led back-end development of a web application by utilizing the MERN Stack and server routing techniques. Developed a real-time post and comment feature for user engagement.
- Implemented users to register a password and username for personal profile creation; user data is saved to a MongoDB database.
- Validated and persisted user login information using express token authentication middleware through a MongoDB database.

Personal Portfolio Website (JavaScript/HTML/CSS)

- Designed a dynamic and phone-friendly website to display my skills and experience that uses a hamburger menu, clickable images, and an auto scroller for an easier user experience.

Spotify Data Visualization (Python, Spotify API)

- Extracted data and analyzed the trends of the top 50 performing tracks of different countries to emphasize patterns.

EXPERIENCE

UCI, Inc.

Irvine, California

Apr. 2025 - Present
